ABOUT ME

I enjoy everything related to technology, such as games, web design and photography. I'm also passionate about interactive media, mainly how people use those technologies and how they are changing and molding our cities.

EXPERIENCE

2020 • **Student's Design Office**
Working as a Digital Media Assistant, I was responsible for keeping the PUC-Rio's Art and Design Department website updated, creating new pages and removing old ones.

2019-2021 • **AeroRio**
AeroRio is a university team that builds Unmanned Aerial Vehicles at PUC-Rio. I was a member of the marketing team, where I managed their social media and created a new website to showcase the vehicles produced.
